

BLANKET BLASTER™

AN EDGE/SKYLINE, WITH A TIGHTER, SPACE SAVING DESIGN

BLANKET BLASTER™ cornerless blanket feeding/folding/stacking system has the fastest throughput, best piece-per-labor-hour rate, and the best finished stacked linen quality in the industry.

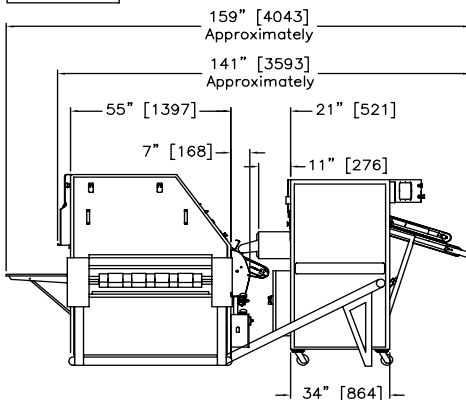

Blanket Blaster offers the same great features and efficiency as the Edge/Skyline two piece blanket finishing system, while saving an additional three to four feet of depth of precious floor space. Blanket Blaster offers the labor efficiency of the original Edge combined with a Skyline Blanket Folder to form a space-saving complete system for dry finishing. State-of-the-art heavy duty first crossfold blade and reversing conveyor crossfold section efficiently handle a wide variety of thicknesses and weights. The system will feed, fold and stack linen up to 120" (3050mm) wide (consult factory for availability of wider models).

NOTE:

1. Specifications subject to change without notice. Consult factory for certified construction floorplan.
2. Millimeter dimensions are in [].
3. All dimensions are + \- 1/2".
4. Discharge configuration may be reversed in field.
5. Utility connections are located as shown.
6. Single point elect. power connection.
7. Single point air connection.

CONNECTION(S)	DIA.	HEIGHT
(A) Air Connection	1/2"	16" [406]
(D) Compressed Air Drain	1/4"	13" [330]
(E) Electrical Connection	-	36" [914]
